

Subject: New Material Safety Data Sheet of IC-100, ARTG No. 238325

Dear Customer,

We would like to give you current information on our product **IC-100**, replacement of previous Plasticlean.

IC-100 has been launched **with full TGA accreditation in the Australian market** and registered under **ARTG No. 238325**.

In our previously issued material safety data sheet a different number was indicated, therefore we revised the MSDS on 16 March 2016 and enclose it herewith.

**We ask you to replace the previous MSDS and
only use this corrected version of 16 March 2016.**

IC-100 was registered as neutral detergent and fully complies with ADA guidelines related to the properties of neutral detergents. It holds strong non-protein fixing properties and is highly compatible with plastics and metal.

For more information please contact

Biodegree Pty Ltd, Sydney / Australia, Ms Magda Posch
